

## LIBRARIAN'S REPORT

This year I have concentrated on logging new acquisitions, donations and the items from the library of Robin Edwards we received last year. Although the number of purchased titles is limited, they comprise some very important publications:

*Abeilles de Belgique et des regions limitrophes. Family Halictidae.* Pauly, A. 2019.

*British Coleoptera larvae.* Handbooks for the Identification of British Insects Volume 4 Part 1a. Barclay M. *et al.*, 2019.

*Atlas of Britain and Ireland's larger moths.* Randle *et al.*, 2019.

Despite another book amnesty at our Annual Exhibition last November, again, no missing items were returned on the day. Therefore, I can only surmise that the copies of Joy's Beetle book referred to in last year's Librarians Report have been stolen.

In conclusion, I would like to thank Peter Chandler, Jon Cole, Roger Hawkins, Rosemary Hill, Ian Masters and Mark Mitchell for donations of books and/or journals during 2019.

IAN SIMS
